

COVID-19: Home Health Screenings & Absences

Boscobel Area Schools

Updated 4/22

All staff and school families should complete daily home health screenings prior to coming to school. It is important that all ill students and staff stay home.

- Have you tested positive for or been diagnosed with COVID-19?
- Have you been in close contact with a confirmed case of COVID-19?
- Are you experiencing new or worsening shortness of breath or difficulty breathing?
- Are you experiencing a new loss of taste or smell?
- Are you experiencing a new or worsening cough?
- Have you had a fever (defined as 100-100.4 degrees F or higher) in the past 24 hours or experienced chills?
- Do you have fatigue, muscle or body aches, or a sore throat?
- Do you have a new or worsening headache?
- Do you have nasal congestion or a runny nose?
- Do you have nausea/vomiting or diarrhea?

If you answered yes to any of the above questions, you should review the “EXCLUSION & RE-ENTRY”

protocols. Please contact the school the school nurse (375-4165) for questions. If your child has symptoms of COVID-19 and you are unsure of what to do, you should contact your child’s health care provider or Grant County Health Department (608-723-6416) for guidance.

Note that protocols do not require close contacts to stay home from school or school-related events unless they are symptomatic. Please see “EXCLUSION & RE-ENTRY” protocols.

Be sure to notify the school of the reason for your child’s absence, including any symptoms of COVID-19, whether your child has tested positive for COVID-19 or whether you plan to seek testing for your child, and/or whether your child has been in close contact a positive case.
